WDW Resort Categories

Resorts at WDW are broken down into several categories: Campgrounds, Value, Moderate, Deluxe, and Deluxe Villas. These categories not only help give you an idea of the pricing, but also the style and types of amenities that will be offered. There is a special resort for every budget and all of them are filled with the magic that only Disney can provide.

Resort Categories

Campgrounds- There is a themed camping resort, where guests can stay in a tent or park their RV.

Value- These resorts are colorfully themed with large pop icons that kids will enjoy. The rooms are the smallest in size at an average of 260 sq. ft, but they also come at a lower cost. The dining options tend to be quick service, such as a food court or pool bar.

Moderate- The theming is a little bit more elevated, with each resort focusing on a different destination. There are Disney touches along the way, but it is more subtle than the value resorts. There are table service options in addition to the food courts. Waterslides are added to pools and many additional amenities are available at these resorts.

Deluxe- These resorts (along with the Deluxe Villas) are the most luxurious accommodation options at Disney World, with stunning rooms and unique experiences. The rooms are much more spacious and there are more options for various room arrangements. These resorts have table service restaurants, often character dining or signature dining options, along with outstanding amenities.

Theme Park Tickets

Park Ticket Details

Walt Disney World Guests can choose from four amazing theme parks: Magic Kingdom Park, EPCOT, Disney's Hollywood Studios, and Disney's Animal Kingdom Theme Park.

What are my WDW ticket options?

- **Standard Theme Park Ticket**- Visit one theme park per day, but you can purchase this for multiple days at once. The price per day goes down the longer you stay! These are date-based tickets, so you will be required to choose a start date at purchase.
- **Water Park and Sports Option**- In addition to visiting one of the four theme parks per day, you get a certain number of visits to other Walt Disney World fun, based on the length of your ticket. Ex. 3 day tickets allow 3 visits. For each visit, you can select one of the following:
  - A Walt Disney World water park (Either Typhoon Lagoon or Blizzard Beach- Whichever is open)
  - ESPN Wide World of Sports Complex
  - Disney's Oak Trail Golf Course
  - FootGolf at Disney's Oak Trail
  - Disney's Fantasia Gardens Miniature Golf Course (one round prior to 4:00 PM)
  - Disney's Winter Summerland Miniature Golf Course(one round prior to 4:00 PM)
- **Park Hopper Option**- This special ticket type allows Guests to visit more than one of the four theme parks per day. The ability to visit a park is subject the the park's capacity limitations.
- **Park Hopper Plus**- This ticket option gives you access to all of the features of the Water Park and Sports Option as well as the Park Hopper Option.

Theme Park Reservation

The types of tickets that require Theme Park Reservations at this time are primarily for Annual Passholders, student groups, and other unique situations. Standard date-based tickets and vacation packages no longer require this, as of now. If Park Reservations are required for your party, you'll want to make sure that the park you'd like to visit is available.

What are the age groups for the tickets?

Adult tickets are for ages 10 and up and Child tickets are for guests between 3 and 9 years old. Children under three are free!

Disney Ride Guide

From Rope Drop to Rider Switch, it feels like Disney World has its own special language. Here is an easy guide to break it all down.

Disney Ride Definitions

- **Early Entry**- Guests who are staying at Disney Resort hotels (and select other hotels) can enter the park 30 minutes early. Please note that only some of the rides are available during this time. (For example, at Magic Kingdom, only Fantasyland and Tomorrowland are open.)
- **Rope Drop**- The strategy of arriving at the theme parks very early in order to be there as soon as it officially opens. The early hours of the day are typically when wait times are the lowest. (Historically, this term referred to a physical rope dropping during the time when the park opens.)
  - Most people strive to arrive 30-45 minutes earlier than the park opening time (or 30 minutes before Early Entry for eligible resort guests) to take advantage of this method.
  - Prior to normal operating hours, many of the parks will have shops and quick service dining locations open for Guests to visit before the entirety of the park opens to the public. For example, you can head to Main Street Bakery at Magic Kingdom prior to the official park opening time. The attractions will open during normal operating hours.
  - Typically, Cast Members will start letting Guests into the front gates of the park around 30-45 minutes prior to opening.
- **Rider Switch**- This option allows two supervising Guests (14 years or older) to take turns enjoying a ride without waiting in line again. If a Guest in your party can't board an attraction or can't endure waiting in the line, show up with your entire group and let the Cast Member know that you are interested in this option.
- **Extended Evening Hours**- Guests of Disney Deluxe and Deluxe Villas as well as a few other eligible resorts have exclusive access to certain parks for two additional hours after it closes, on select nights!
- **Dark Rides**-Rides that move guest through multiple scenes to create a narrative, such as Mickey & Minnie's Runaway Railway. It doesn't mean that the ride is scary or that the entire ride would be dark because some of them take place outside, like Expedition Everest.
- **Crowd Calendar**- These handy tools help forecast the best dates and times within the year to avoid high crowd levels.

Disney Ride Guide

Disney Ride Definitions

- **Genie Services**- This is the FREE service that allows Guests to use the My Day and Tip Board features in the My Disney Experience app. "My Day" allows Guests to view their booked theme park plans in one centralized location. The "Tip Board" helps Guests see the estimated wait times, order food, make and check-in to dining reservations, and request to join available virtual queues. In other words, this is your virtual planner, providing on-the-go planning tools and customized itineraries.
- **Lightning Lane Entrances**- Instead of the standard queue, you can save time by using the Lightning Lane Entrances, which will have shorter lines. These options are available for Guests who booked Lightning Lane Multi Pass or Single Pass for that specific ride.
- **Lightning Lane Multi Pass**- This is the PAID upgrade. LL Multi Pass allows Guests to save time waiting in lines by using the Lightning Lane Entrances instead of the standard queue for many of the most popular rides and attractions.
- **Lightning Lane Single Pass-** A few select rides require you to pay for them individually (a la carte). You do not have to purchase LL Multi-Pass in order to buy a LL Single Pass, but you can do both.
- **Disability Access Service (DAS)**- This program assists Guests who have difficulty with longer waits in a conventional queue environment due to a disability.
- **Virtual Queue**- This FREE option is available for select attractions and experiences. Guests can request to enjoy that attraction or experience later in the day on the My Disney Experience app. Then, they are able to enjoy other experiences while they wait. When the virtual queue is in place, a standby queue (standard queue) is not available, so the only way to enter the attraction or experience is by joining the virtual queue.
- **Boarding Group**- When you join a Virtual Queue, you are assigned a Boarding Group number. Boarding groups are notified in chronological order when it's their turn to enter the queue. There is an estimated wait time shown on the app. Once your Boarding Group is called, you have one hour to return to the attraction entrance and check in with your MagicBand, MagicMobile, or Key to the World card to enter the queue.

LL Multi Pass Guide

LL Multi Pass Overview

Disney Lightning Lane Multi Pass is a **paid service** that allows you to **enter through Lightning Lanes** instead of waiting in the longer standby lines **for select attractions**. While you still need to wait behind other guests in the Lightning Lane queue, this can save you hours on wait times and allow you to enjoy more attractions in a single day. Guests will be able to have up to **three rides pre-selected at a time**. The general process is that once you have completed one attraction, you can select the next available attraction to replace that slot, and repeat that process throughout the day, so **you can only have up to three selections at one time.** You can **only use LL Multi Pass for a specific attraction once per day**. For example, you cannot use LL Multi Pass twice in one day for Peter Pan's Flight. You also receive digital downloads of select attraction photos and videos through **PhotoPass** and access to PhotoPass Lenses.

Can I purchase Lightning Lane Multi Pass in advance?

Yes, you can purchase this service in advance. You can also pre-select the rides for multiple days at at time! Here are the times to keep in mind:

- **Seven Days in Advance for Disney Resort Guests** - If you are staying at a Disney resort hotel (including Swan, Swan Reserve, Dolphin, and Shades of Green resorts), you can purchase Lightning Lane Multi Pass seven days before the first day of your resort stay. You will be able to make reservations for every park day during your stay at this resort, capping at 14 days in advance. This includes guests who are staying at Disney resorts and also have an annual pass.
- **Three Days in advance for Non-Resort Guests**-If you are staying off property, you can purchase this three days in advance.
  - For **Date-Based tickets**, you can purchase 3 days before the first day or your ticket, for the total number of valid admission days on the ticket. For example, if you have a 4-Day Disney Theme Park ticket starting on Wednesday, you can book for all four park days starting that Sunday.
  - For **tickets that require Theme Park Reservations (including Annual Passes)**, guests may start planning three days in advance of each theme park reservation. For example, if you have a park reservation for Epcot on Thursday, Animal Kingdom on Friday, and Magic Kingdom on Saturday, on Monday, you can only work on the pre selection process for Epcot. You have to wait until Tuesday for Animal Kingdom, and by Wednesday, you can pre-select for Magic Kingdom.
- In both scenarios, the start time to purchase is at 7:00 am Eastern Time. You can then pre-select your three rides/ arrival times.

LL Multi Pass FAQs

What are the main rules around LL Multi Pass?

There are a few key rules to keep in mind:

- You can only select up to three rides initially, per park per day. Only one can be from Tier One and the other two would have to be in Tier Two. (You can decide to select three rides in Tier 2.) You must use up one ride or attraction before you receive the ability to select an additional ride option.
- You must purchase the same ride and time for all guests in your party when making your three selections. However, you can modify details after selecting those three rides and times.
- Lightning Lane Multi Pass is non-refundable and non-transferable.
- Unfortunately, as of now, it has been confirmed that international guests will have to wait until they are on US soil to pre-purchase and pre-select rides. This is due to the fact that this is an app-based system and U.S. apps don't always work in other countries. As of now, we can only currently book through the MDE app.

Do I need to pay for LL Multi Pass twice if I'm park hopping?

No, once you've enjoyed the attractions at the first park, when hopping to the second park, you do not need to pay an additional fee for the second park.

With a Park Hopper ticket, you can make your first three selections for the first park you want to visit. (You can only pre-book all three for ONE Disney theme park initially. Therefore, you cannot book a LL Multi Pass for both Peter Pan and Remy's in advance for the same day since those attractions are at two different parks.) However, after your first attraction is completed at the first park on the day of your visit, you can go ahead and select an attraction at the second park. You don't have to wait to complete all 3 rides at the first park before making selections at the second park.

LL Multi Pass Guide

LL Multi Pass FAQs

Can I use Rider Switch with LL Multi Pass?

Yes, you can! Let the Cast Member know at the entrance of the attraction that you would like to use Rider Switch and you have a Lightning Lane Multi Pass booking. Rider switch also works with Virtual Queues!

Which Tier One and Two rides should I book first?

You should start with the most popular rides and make sure to book those because they might be completely booked later in the day. The Wait Times are a great way to determine which rides to book first. For example, if you have your heart set on riding Slinky Dog Dash, you will want to consider booking that earlier in the day, since the average wait time is 80 minutes!

How much does it cost? Is it worth it?

The pricing will vary, but you will be able to find the specific pricing details when booking for your trip dates. The service is priced differently for each theme park and the parks with more attractions (Magic Kingdom followed by Hollywood Studios) typically have the highest prices. Guests find the most value purchasing these services if they visit during seasons with high crowds, have children or seniors joining them, visit during the hot summers, and/or want to prioritize the most popular attractions included in the service. It will be less worth it if you do not start making selections until later in the day or wait to select the most popular rides you want and then they are booked.

Will my entire party have to make the same Lightning Lane selections?

When you first purchase a Lightning Lane pass, your entire party will have to make the same Lightning Lane selection. However, you can modify the Lightning Lane selections after purchasing so everyone can experience what they want, even if it varies.

LL Multi Pass Guide

LL Multi Pass FAQs

How long do I have to redeem my Lightning Lane selection?

You will have a one-hour window to arrive and scan into your Lightning Lane selection.

If I cancel a resort reservation within the 7 or 3 day window when I've already purchased LL, what happens?

Lightning Lane Multi Pass is not refundable. Therefore, if you cancel or modify your resort hotel reservation after you've already purchased a LL Multi Pass, then your selected attractions and arrival windows are subject to cancellation based on eligibility rules. When you become eligible to make LL selections again, you can use the MDE app to choose available LL Multi Pass experiences and arrival windows for the passes you've already purchased.

Once a Multi-Pass ride is used and I'm eligible to book a new one, does it have to be from Tier 2?

Once a selection has been redeemed a new one can be booked from any group (subject to availability).

What about split stays? Is the 7day rule based on the start of each reservation date?

The second stay will trigger the pre-planning based on the next stay's check-in date. (This is the same process for dining reservations.)

LL Single Pass Guide

LL Single Pass Overview

For the most highly demanded attractions, instead of LL Multi Pass, Disney World offers a Lightning Lane (LL) entry as an a la carte purchase. This option is called LL Single Pass. You can either purchase both LL Multi Pass and LL Single Pass OR you can just purchase one or the other. Lightning Lane entry selections are subject to limited availability on the day of your visit, so you'll want to check the Tip Board in the My Disney Experience app to confirm the availability and pre-book your rides as soon as possible. Please note that they do typically release more LL Single Pass booking options throughout the day, so if you do not get a chance to reserve one right at 7 am, don't give up!

Can I purchase Lightning Lane Single Pass in advance?

Yes, you can currently purchase this service in advance. You can also purchase for multiple days at a time. Here are the dates and times to keep in mind:

- If you are staying at a **Disney Resort Hotel**, or a few other select resort hotels, y**ou can pre-book 7 days in advance of the first day of your resort stay**, starting at 7 AM Eastern Time. You will be able to make reservations for every park day during your stay at this resort, capping at 14 days in advance.
- **The first purchase can be made 3 days in advance of each individual park day**, at 7 AM Eastern Time for all other Guests.
- You can **only purchase two LL Single Passes per ticket per day.**

Which rides are LL Single Pass rides?

There are currently 5 options available to book as Lightning Lane Single Passes:

- Seven Dwarf's Mine Train- Magic Kingdom
- TRON Lightcycle/ Run- Magic Kingdom
- Avatar Flight of Passage- Animal Kingdom
- Star Wars: Rise of the Resistance- Hollywood Studios
- Guardians of the Galaxy: Cosmic Rewind- EPCOT

How does it work?

Once you select your ride choice in the My Disney Experience app, you can **pick a preferred time** from the available time slot options. You will be give **a return time with a one hour window** to scan in at the Lightning Lane entrance and enjoy the ride. Once you make a Lightning Lane Single Pass reservation, it can't be changed or cancelled. If the ride temporarily closes, you can typically ride at a later time after it reopens. In certain situations, you can speak to Guest Relations regarding refunds.

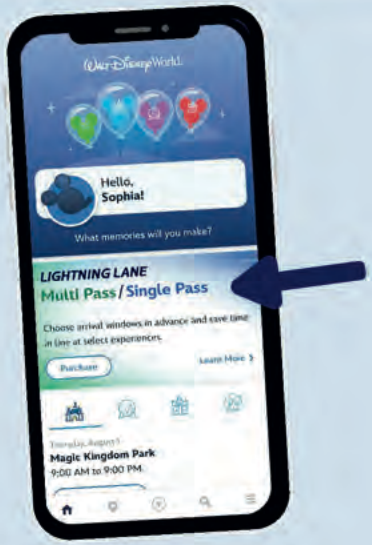
Lightning Lane Booking Guide

In advance of your trip, it's highly recommended to download the My Disney Experience app and familiarize yourself with the key features. You'll want to make sure that everyone in your travel group is on your Family & Friends list in the My Disney Experience app in order to purchase Lightning Lane Multi Pass and/ or Single Pass. Then, you'll be able to make selections for your entire group. You will initially need to select the same 3 rides and times for members of your travel party in the Multi Pass transaction., but you can modify it later.

How to Book LL Multi Pass/ Single Pass

Step One

Either 7 days in advance (resort guests) or 3 days in advance (non-resort guests), check the My Disney Experience app at 7:00 am Eastern Time for the specific pricing details on the day of your park visit.



Step Two

From the MDE app's main menu (≡), select "Rides, Shows & Lightning Lane Entry."
On the "Tip Board" find the "Lightning Lane Multi Pass/ Single Pass" option at the top of the screen and tap "Purchase".

Step Three

Select the theme park you plan to visit that day or select the first park if you have a Park Hopper ticket. You can select the Multi Pass and Single Pass rides in the same transaction!

- Don't give up if you don't get the reservations you were hoping for! Last-minute reservations open up frequently.
- If plans change, be sure to cancel any unwanted reservations before a no-show fee is applied.
- If you run really late to your reservation, call ahead and still try to show up! A table may still be available.

Character Dining

- We find character dining to be worth the money, especially if you have characters you want to be sure to see and would like to avoid waiting in line.
- Characters will visit each table. The server will likely ask you to remain stay seated.
- Have your autograph book and/ or cameras ready!
- Some character meals rank higher than others for food, atmosphere, etc., so based on what your top priorities are, keep those reviews in mind.
- If your strategy is to be at one of the parks early in the morning, keep that in mind when you are booking breakfast meals.
- If you have your heart set on a specific character, you can reconfirm all characters three weeks or so before your trip by calling 407-WDW- DINE (939-3463).

**Character appearances and entertainment are scheduled to change*

Mobile Ordering

Mobile Ordering Instructions

Use the My Disney Experience (MDE) app to place an order and pay for your meal online! Plan to place your order about 30-40 minutes before you want to eat. During peak times, I would recommend 1-2 hours in advance. The process is simple!

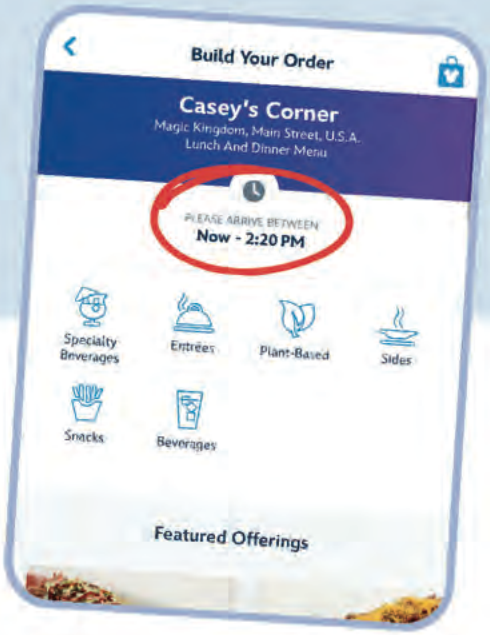
Click on the three bars in the bottom right corner of the app. Select "Mobile Food Orders."

Step Two

Click on "Create New Order" and then "Begin Order" for the restaurant of your choice. The arrival time will be listed at the top of the restaurant menu page.



Step Three

Add the items to your cart. Select "View my Order" when you have selected all of the items you wish to purchase. Click the blue "Review Order Summary" button at the bottom of the page. Enter your card information and complete your purchase.

Note: You should receive an alert in the app once your order is ready. However, if you do not get the notification and it's around the expected pick up time, check with a Cast Member.
